04. FIRST AID MEASURES

Description of first aid measures

After inhalation: Loosen clothing as necessary and position individual in a comfortable position. Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Get medical assistance if cough or other symptoms appear.

After skin contact: Rinse/flush exposed skin gently using soap and water for 15-20 minutes. Seek medical advice if discomfort or irritation persists.

After eye contact: Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

After swallowing: Immediately call a POISON CENTER or doctor/physician

Most important symptoms and effects, both acute and delayed: Irritation, Nausea, Headache, Shortness of breath.;

Indication of any immediate medical attention and special treatment needed:

If seeking medical attention, provide SDS document to physician. Physician should treat symptomatically.

05. FIRE-FIGHTING MEASURES

Extinguishing Media

Use as appropriate: Carbon Dioxide (CO₂), dry powder, foam or water fog, mist or spray. Do not use high pressure water jet as this may spread burning material.

If it is involved in a fire the following can be released: Carbon Monoxide, Carbon Dioxide. Nitrogen Oxides. Ammonia, unidentified organic compounds.

Advice for firefighters

No special measures required. In the event of fire, wear self-contained breathing apparatus.

06. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Ventilate to dispel any residual vapour. Clean-up personnel should use respiratory protection, gloves, goggles and protective clothing and footwear (see section 8).

Environmental Precautions

Prevent further leakage if safe to do so. Do not let product enter drains.

Methods and material for containment and cleaning up

Stop leak if you can do it without risk. Cover with plastic sheet to prevent spreading. Sweep up and shovel into suitable containers for disposal. Avoid creating dust. Clean contaminated surface thoroughly.

Reference to other sections

Dispose contaminated material as waste according to item 13.

07. HANDLING AND STORAGE

Precautions for safe handling

Keep away from heat, sparks, open flames and hot surfaces. - No smoking. Advice on safe handling: Eye wash facilities and emergency shower must be available when handling this product. Use only in well ventilated areas.

Avoid spilling, skin and eye contact. Do not breathe vapour or fumes.

Use suitable protective clothing (see section 8). Wash thoroughly after handling.

General hygiene Considerations: Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities Storage: Keep away from all possible sources of ignition.

Storage conditions: Store in tightly closed containers in segregated, cool, dry, ventilated storage.

Specific end use(s)

No additional data available.

08. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

, , OSHA PEL TWA (Total Dust) 15 mg/m³ (50 mppcf*)

, , ACGIH TLV TWA (inhalable particles) 10 mg/m³

Appropriate engineering controls

Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Provide adequate general and local exhaust ventilation.

Individual protection measures/Personal protective equipment

Respiratory protection:

Not required under normal conditions of use. Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.

Protection of skin:

Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear protective clothing

Eye protection:

Wear equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses or goggles are appropriate eye protection.

General hygienic measures:

Perform routine housekeeping. Wash hands before breaks and at the end of work. Avoid contact with skin, eyes, and clothing. Before wearing wash contaminated clothing.
